

Rhinamel[®] SR

Slip Resistant epoxy surface coating

7200 - line

Description

- 2-pack epoxy / polyamide finish coat with texture profile for slip resistance

Properties

- Tough, durable surface
- Textured surface increases slip resistance
- High corrosion, chemical and abrasion resistance
- Long pot life

Typical Applications

- Factory floors, amenities blocks
- Stairs, walkways, truck trays

General Data

- Weather resistance Good (will chalk and yellow on prolonged exterior exposure, however film integrity is not compromised)
- Solvent resistance Good
- Chemical resistance

Fats & Oils	Excellent
Alkalis, dilute	Excellent*
Acids, dilute	Good*

*may cause discolouration of some colours
- Abrasion resistance Excellent
- Recommended primers Rhinamel[®] Clear Sealer

Specifications (at 25°C and 50% relative humidity)

- Resin type..... Epoxy / polyamide
- Mixing ratio..... 3 : 1
- Solids content..... 55% (by volume)
- Typical film thickness (per coat)..... 125 microns (dry)
225 microns (wet)
- Theoretical coverage..... 10 - 12m² / L @ 125 microns dry film thickness
- Touch dry..... 4 - 6 hours
- Hard dry..... 16 hours
- Full cure..... 7 days (will not cure at temperatures below 10°C)
- Recoating..... within 24 hours to ensure good intercoat adhesion
- Pot life..... 4 - 12 hours (depending on temperature and level of thinner added)
- Gloss..... Matt
- Colour..... Range of colours available
- Shelf life..... minimum 12 months (in cool, dry conditions)

Surface Preparation

- **Steel** surfaces must be degreased, then subjected to abrasive blasting (to AS 1627.4 Class 2½) or abrasion with a suitable power cleaning tool (e.g. disc sander). Apply Rhinamel[®] No. 6 before flash rusting occurs.
- **Concrete** must be cured for a minimum of 28 days. Remove all traces of curing membrane, release agents, oil and grease. Acid etch with a 10% solution of Phosphoric Acid or Hydrochloric Acid in water. (Alternatively, shotblast or diamond grind to remove surface laitance) Allow concrete to dry thoroughly, then seal with one coat of Rhinamel[®] Clear Sealer
- **Timber** Sand and dust down. Remove all traces of previous coatings. Not recommended for softer timbers, e.g. pine, cedar, etc. Timber should be well seasoned and of less than 10% moisture content prior to coating.

Rhinamel[®] SR

Mixing recommendation

- Mix only the quantity required for the job
- Mix Pack A with Pack B in the ratio 3:1
- Stir thoroughly with a broad paddle or mechanical mixer to ensure even mixing of the two parts
- Allow mixture to stand for 30 minutes in warm conditions, and up to 2 hours in cool conditions, prior to application
- Thin as needed with Wagon Paints' T3 Epoxy Thinner (see Application directions), and stir as above
- If thinned, stir mixture periodically to prevent settling of texture agent

Application

- Recommended for application by roller
- Small areas may be coated by brush
- **Roller** short nap..... 5 - 10 mm
volume of thinner.....only if required
- **No. of Coats**..... Two
- **Cleaning solvent** T3 Epoxy Thinner

Safety precautions

- **Refer to the relevant Material Safety Data Sheets for Pack A and Pack B**
- Contents are flammable – keep away from all ignition sources
- Avoid contact with skin and eyes – when mixing, wear gloves and goggles
- When spraying, ensure adequate ventilation and wear appropriate protective clothing and equipment

Packaging Group III **UN No.** 1263 (Pack A); 1866 (Pack B)

Pack sizes 3 litre, 15 litre (Pack A)
1 litre, 5 litre (Pack B)
